Season Boon

Throughout the course of the first season of the Starfinder Society (Starfinder Society Scenarios #1-01 to #1-39), players had the chance to collect several unique boons relating to the primary storyline associated with the season. These boons, titled "Journey to the Scoured Stars: Segments 1-8," each contributed to a single cumulative boon associated with Season 1. Any player can purchase this boon if they meet the prerequisites listed below. A player's possession of Journey to the Scoured Stars segment boons can be across multiple PCs, but a specific numbered segment counts only once toward the player's total number of segment boons.

Year of the Scoured Stars (Slotless Boon)

Whether through your direct accomplishments or the actions of allied Starfinders, you've made serious headway against or completely triumphed over the threat of the Scoured Stars. The Society remembers the deeds of the noble Starfinders who battled against the jinsul threat and the discovered the mysteries of the Scoured Stars, and many other Starfinders benefit from the actions of these brave veteran agents.

Prerequisites: All Factions Tier 3; at least four of the Journey to the Scoured Stars segment boons

Cost: 8 Fame (24 on subsequent purchases)

Benefit: When you select this boon for a character, pick one of the following to apply to your character immediately:

- You gain 1 extra Resolve Point. If you've collected all eight segments, then this increases to 2 Resolve Points.
- You gain 1 extra Hit Point for every character level you have. If you have collected all eight segments, then this increases to 2 Hit Points for every level you have.
- You can select a single saving throw (Fortitude, Reflex, or Will) and increase your bonus to that save by 1. If you have collected six or seven segments, then you can select one of the remaining two saves to increase, and if you've collected all eight segments, then you instead increase all your saves by 1.
- If you've collected all eight segments, then you can increase one of your ability scores that is currently 16 or lower by 2.

Special: When you first apply this boon to a character, it costs 8 Fame. You can apply this boon only once to a given character. Subsequent purchases of this boon for different characters cost 24 Fame.
